This design can easily be adapted to transforming a pre-school, children church classroom, or playroom. If you need any design assistance just email us at info@create-a-mural.com and we will be happy to help.

Supplies-

- Paint-(4) colors
 - 1-Sky Blue (1) Gallon
 - 2-Medium Blue (1/2) Gallon
 - 3-Deep Blue (1) Gallon
 - 4-Sandy Tan (1/2) Gallon
- Paint roller & tray
- Drop Cloth
- Paint brush 2" bristle angle brush
- Chalk
- Damp Sponge

Step 1-

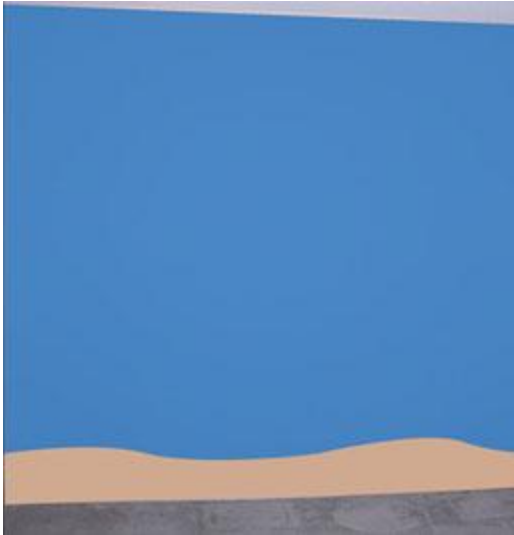

- Paint wall in the Deep Blue Paint.
- Let dry overnight.

Step 2-

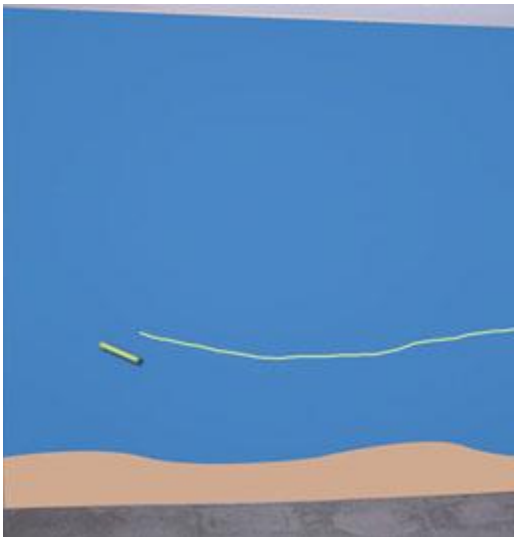

-Using chalk draw a downward slope starting from right hand corner of wall approximately 1 foot up wall & draw a softly flowing line toward the left hand corner of the wall to simulate a sandy ocean floor.

-If you don't like the look that's fine just use a damp sponge & wash it off and redraw.

Step 3-

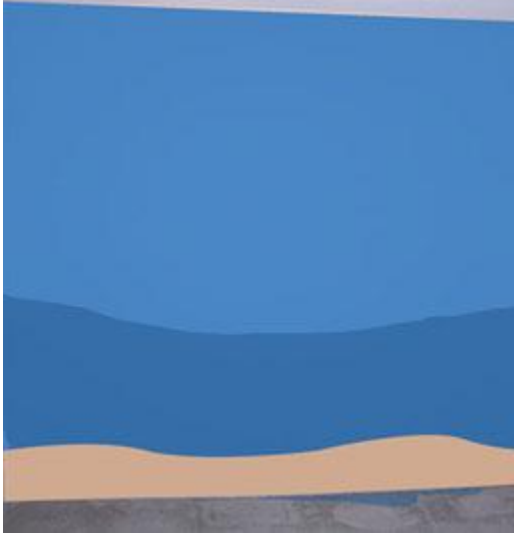

-With sandy colored paint, paint in sand with a paint brush.
-Let dry.

Step 4-

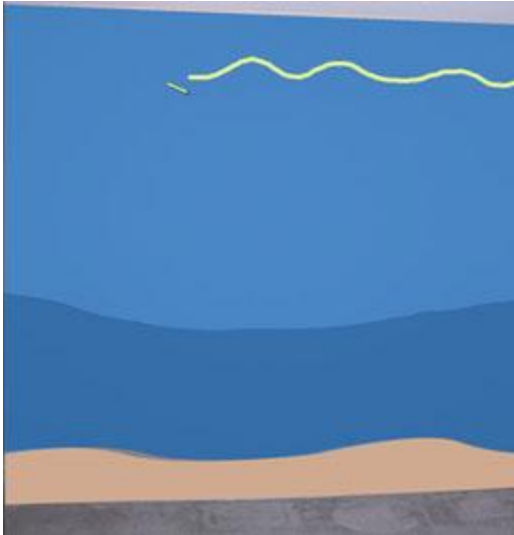

-Using chalk at approximately 3 1/2 feet on left hand side of wall draw a wavy & flowing line to the other side of the wall. You are creating the dark murky depths of the ocean.

-Don't worry if your lines are not exactly the same as the directions. This is your child's room. Have some fun! Remember it's only chalk.

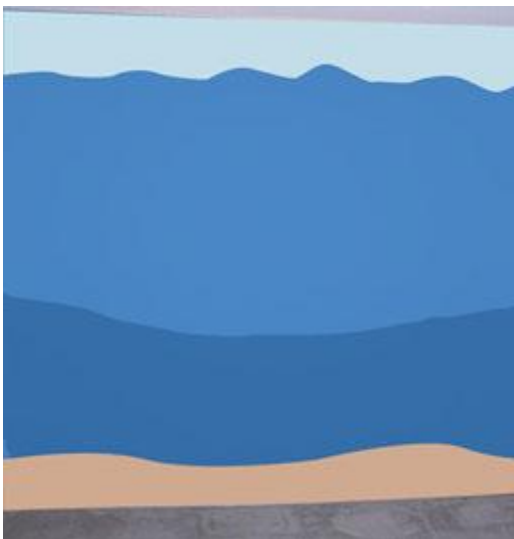

Step 5-

- After all the chalk lines are drawn start painting the **Deep Blue Paint** background. Using the 2" bristle angle brush & small paint tray follow the chalk lines on top. Then go back and fill in background area.
- Remember the chalk line is just a guide.
- Clean out 2" bristle brush when done to get ready for the Medium Blue Paint color.

Step 6-

- Using chalk at approximately 6 1/2 feet up start on left hand side of wall draw a wavy & flowing line to the other side of the wall.

Step 7-

- After all the chalk lines are drawn start painting the medium blue background. Using the 2" bristle angle brush & small paint tray follow the chalk lines on top. Then go back and fill in background area.
- Remember the chalk line is just a guide.

Step 8-

-AFTER PAINT HAS DRIES AT LEAST 1 WEEK !

-You must give the paint time to fully cure. The painted wall may feel dry to the touch, however moisture from the paint is still evaporating from the paint & it interacts with the mural/wall stickers/ mural piece's adhesive and they will not stick until the paint is full cured. If you should happen to adhere the mural/wall stickers/ mural piece's and they should become lose or fall off.It is fine. Just place them back onto the backing and wait a week & reapply.

-Using the above photo & suggested layout as a guide start to apply wall stickers / mural pieces to your child's walls.

-Start with the background pieces because the front one's will be placed on top.
